LIFT BOX TYPE AUTOMATIC DOUBLE BOX UNIVERSAL & HIGH DENSITY DOWN - PACKING COTTON BALING PRESSES

NIPHA "NDBDP" Press

SPECIFICATIONS

Box Size	: 1040mm X 508mm (41" X 20")
	: 1370mm X 508mm (54" X 20")
	: 1220mm X 458 mm (48" X 18")
Bale Wt.	: 170 kgs. to 300 kgs.
Capacity	: 15 to 35 Bales per hours
Tonnage	: 270 to 400 Tons
Bale Density	: 15 to 35 lbs./cu.ft.

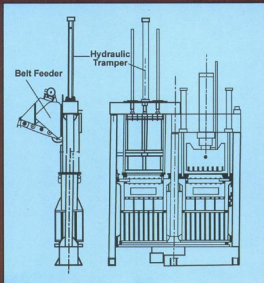

Installed at floor level and no press pit required; Press design deserves serious consideration where building height poses no problem and the site suffers from constant high water table consequences.

NIPHA DOOR-LESS BALE PRESS

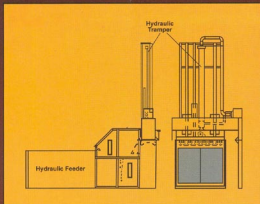

NIPHA " NDBDP " Presses are also supplied with :

- Battery Condenser with special compacting rollers for enhanced lint feeding.
- Humidification of Lint at lint slide for increased density of bales.
- A Bale Bagging and Weighing line acting in unison with the Press Control for avoiding additional bale wrapping time at the Press and 100% wrapping of Bales.
